Where To Download 60 Hp Bigfoot Mercury Engine

Your 60-HP Mercury engine needs special care before winter storage. The engine uses lake water to cool it when it is running. The water remaining in the engine must be removed to avoid corrosion and damage to the engine block. The supplies and tools to winterize your engine may be purchased at any boat shop.

FourStroke 40-60hp | Mercury Marine

Partially open the water tap (1/2 max). Do not open the tap all the way, as this allows a high pressure flow of water. IMPORTANT:

Do not run engine above idle when flushing 4) Shift outboard into neutral. Start the engine and flush the cooling system for at least 5 minutes. Keep engine speed at idle 5) Stop engine. Turn off water and remove hose.
