The experiences and practices of research writing are explored through bite-sized vignettes, stories, and actionable 'teachable' accounts. Doctoral Writing: Practices, Processes and Pleasures has its origins in a highly successful academic blog with an international following. Inspired by the popularity of the blog (which had more than 14,800 followers as of October 2019) and a desire to make our six years' worth of posts more accessible, this book has been authored, reworked, and curated by the three editors of the blog and reconceived as a conveniently structured book.
