How to Change Manual Transmission Oil on an Hyundai Elantra

At this point, we already cleared the air on possibility. So, we will just look at how feasible it is to convert a manual transmission car to an automatic vehicle. If your car's model is one later than 1990, it will require more than a change of transmission to become an automatic vehicle.

A manual transmission car doesn't have a gear called "park" like an automatic does. That means you must put the parking brake on when you park the car. To park a manual, turn the engine off and... 

How to Drive a Stick Shift - How to Drive a Manual Car

Most manufacturers recommend that manual transmission fluid be changed every 30,000 to 60,000 miles. When should I change my transmission fluid every 15,000 miles. You will need the right equipment in order to carry out properly a transmission fluid change:

Lift up the hood of the car and look for the transmission filler hole. Attach the clear tubing to the funnel and make sure it isn’t too loose, so it won’t come out while filling.
