triumph spitfire 1500 engine for sale | eBay

While often lamented, Triumph 's 1500cc, four-cylinder engine is still owned and loved by thousands of enthusiasts. Almost 100,000 of these engines were used in the 1973- ' 80 Spitfires, and nearly as many were used in MG Midgets sold from 1975 and later. Right off the bat, this larger engine delivered more torque than its predecessor.

Fortify Your 1500: Improving 1500 Spitfire and Midget Engines

This is the car that closed the books for Triumph in America, as the Spitfire was swarmed by a Washington assault. Unlike the home version, America's Spitfire dribbled along with a catalytic converter and just 57hp from a single Zenith-Stromberg carburetor, to which U.S.-spec cars with the 1500 engine were restricted from 1973 onward.

First and Foremost - 1979 Triumph Spitfire 1500 | Hemmings

Now for the question of should the Spitfire be able to cruise at today 's highway speeds? Our answer was - yes. But, the original 56.5 hp from the standard engine said - no. So, the engine was rebuilt to make about 95hp of reliable power by Terry Tinney of Terry Tinney Motors (<http://www.terrytinney.com/index.html>).

Engine & Drivetrain : 1974 Triumph Spitfire

Noted Triumph Spitfire author Calum E. Douglas of the Triumph Network states that a variety of engines will fit, from the stock engine to a Ford 427 Big Block. The main consideration is not the size, but the weight. The weight of a standard Triumph engine is 275 pounds. Bigger engines weigh more, such as the 427, weighing 701 pounds.

What Engines Will Fit a Triumph Spitfire? | It Still Runs

EARLY MkIV engines (to engine number FH25000E) have (as all previous Spitfires) Non-Recessed cylinder bores, and use a plain head gasket. LATE MkIV (from engine number FH25001E), and ALL 1500 engines have a Recessed Lip at the top of the cylinder bores adjacent to the block face, necessitating a particular type of head gasket, which can be identified by a small 'Tag' that stands proud at the rear of the block.

Triumph Spitfire and GT6 Engine Numbers

To be sure it's the proper engine (but not necessarily the original engine that was installed when the car was produced), the engine number in a Euro-spec Spit 1500 should always have the prefix ' FM '. If it says ' FH ', it's a 1300cc MkIV engine. If it's a MkIV you're looking at, that'll be fine.

Triumph Spitfire identification - part of the European ...

This Triumph Spitfire 1500 is built in year 1975 and is in a good condition. The paintwork in the color yellow is in very good condition, as well as the matching black interior with yellow accents. The 1493cc four-cylinder engine with double carburetors and manual transmission ensure that this Spitfire drives great.

1975 Triumph Spitfire for Sale | ClassicCars.com | CC-1423299

The car fitted with this new engine was called the Spitfire 1500 and its engine produced 71 bhp (DIN) @ 5,500 rpm and torque of 82 lb/ft. This engine was mated to a Morris Marina gearbox with the result that the car could now actually “ do the ton ” , i.e. 100 mph and boasted a standing to 60 mph time of 13.4 seconds.
